L.A. Unified is in the middle of one of the largest public construction programs in the nation's history. The Facilities program, valued at more than \$25 Billion, has enabled more than 130 new school projects to be built, and approximately 20,000 school repair and modernization projects to be completed. Even with these investments, L.A. Unified still has more than \$7 Billion to invest in modernizing and upgrading its school facilities. The philosophy of the Facilities Bond Program is based on a commitment of partnership and to being the Owner of Choice.

To RSVP, or for further information, please email: prequalification@laschools.org | Parking is available in lots adjacent to the building; validation not provided.
