

SACRAMENTO CHAPTER LUNCH PROGRAM

TRADE PARTNER PANEL - MAKING DESIGN-BUILD SUCCESSFUL

A moderated panel of regional Design-Build trade partners examines how they are structured to be successful on D-B projects. Much of the discussion about 'how to do Design-Build' is led by the General Contractor, Architect and Owner community, however most of the work put in place is done by our partners from the mechanical, steel, partition/drywall, electrical, plumbing, roofing, concrete and other trades. Allison Otto will facilitate a discussion between respected Sacramento-area trade partners on what really goes on under the hood of Design-Build projects, and what they need to best bring their expertise to bear on the projects they deliver.

This panel is a must for Owners, General Contractors, Architects and Engineers interested in hearing what their trade partners need to deliver the greatest value on their projects.
