DESCRIPTION

Come enjoy heavy hors d'oeuvres and signature drinks as we talk about what everyone is talking about: Mass Timber! It's Growing popularity is pushing innovation in building construction, and design-build is the best delivery format to harness the potential of this innovative building technology. This presentation and panel discussion will outline how to organize and coordinate design teams and subcontractors, the procurement advantages and considerations of mass timber, and field implementation, costs and schedule efficiencies learned from several case studies.
