

DBIA-WPR LA/OC CHAPTER BURBANK AIRPORT PASSENGER TERMINAL TOUR

Join DBIA-WPR LA/OC Chapter for a tour. The Burbank Airport Authority made a bold decision to procure their next major infrastructure project using the Progressive Design-Build model. They based their decision on two primary considerations: ability to maintain program cost within established program funding parameters; and ability to define scope and manage design development and program cost with input from both the designer and the builder. Join other DBIA members in a facilitated discussion and private tour with the key players that are preparing to complete this 355,000 square foot facility that will have 14 gates and resolve long-standing safety and accessibility issues with the current terminal.

Come join the Burbank Airport Authority, Jacobs, Corgan, CannonDesign, Holder Construction, Pankow Builders, and TEC as they peel back the curtain of what it takes to deliver a highly complex aviation project using the most collaborative delivery model.

Light snacks and non-alcoholic beverages will be served.

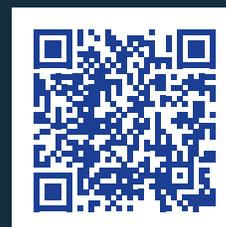

2026 LA/OC CHAPTER TOUR

THURSDAY, MARCH 26, 2026

2:00pm - 5:00pm

**REGISTRATION ONLINE ONLY AT
dbiawpr.org**
