

# Owner's Council Webinar HOW TO DELIVER BETTER PROJECTS

Are you interested in creating more value for the funding you have and creating greater internal customer satisfaction? If so, please join us for an informative webinar with David Umstot, PE, a former public owner and a past DBIA Western Pacific Region President, to learn how progressive design-build and Lean practices are producing superior results. David will share design-build best practices and how Lean can build collaboration, create additional value, improve quality, reduce waste and improve schedule performance.

This webinar is hosted by the Owner's Council and is intended to educate owners on design-build practices.

~~Thursday, February 23, 2017~~ **Moved to March 8, 2017**  
**12pm to 1pm**

**REGISTRATION VIA ONLINE AT**  
[www.dbiawpr.eventbrite.com](http://www.dbiawpr.eventbrite.com)

## SPEAKER

### **Mr. David Umstot, PE, CEM**

Co-Founder and President  
UMSTOT PROJECT AND FACILITIES SOLUTIONS, LLC

Mr. Umstot is a nationally recognized authority in Lean project delivery, design-build, program management, facilities management and sustainability. He has seen the industry from 360 degrees as a designer, builder, design-builder, facilities manager, executive, owner and coach. He is a principal of Umstot Project and Facilities Solutions and The ReAlignment Group of California and an associate faculty member at San Diego State University.

He was formerly Vice Chancellor of Facilities Management for the San Diego Community College District, responsible for managing their \$1.6B capital bond program, facilities maintenance and operations, and College Police. He was also formerly the Executive Director of Facilities at San Diego Unified School District responsible for implementation of its \$1.51B Prop MM capital bond program and \$131M annual physical plant operations. He has delivered more than 50 design-build contracts in his career.

David is the lead author of a new book to be released this spring titled ***Lean Project Delivery - Building Championship Project Teams***.
