

# DBIA-WPR OWNERS COUNCIL WEBINAR "RISK MANAGEMENT IN DESIGN-BUILD – AN OWNERS PERSPECTIVE"

Construction projects can be complex and unique—as are the risks that go with them. Sometimes a risk turning into reality delivers a knockout blow to a project. In other cases, a combination of risks build up and eventually sink the project. One misconception of design-build is owners are not responsible for any project risk. Construction risk management is a must for all owners to appropriately assign risk in the procurement documents. Owners have the ability to avoid, transfer, mitigate or accept risks. Developing a process to evaluate risk during the project development phase will help owners avoid surprise claims from contractors. This presentation will provide owners best practices for evaluating and assigning risk in design-build projects.

**Tuesday, June 6, 2017**  
**12pm to 1pm - Webinar**

**REGISTRATION VIA ONLINE AT**  
**[www.dbiawpr.eventbrite.com](http://www.dbiawpr.eventbrite.com)**

## SPEAKER

**Phil Croessmann**  
**Global Director of Risk Management**  
MWH CONSTRUCTORS, INC.

Mr. Croessmann is the global director of commercial and project risk management services. His duties include overseeing the commercial, claims and contract operations in both the U.S. and the U.K. He provides risk management and claims support services to owners across the U.S. Mr. Croessmann has more than 30 years of experience managing risk on major design and construction projects. Mr. Croessmann has a bachelor's degree from the University of Oregon School of Architecture and Allied Arts and a juris doctorate from the University of Syracuse College of Law.

**Registration limited to 50 owners and 50 non-owners.**

## COST TO REGISTER
