

BIM: COOL OR....

To BIM or not to BIM? That is no longer the question. We're too far down the line to turn back now. But is BIM all that it's really cracked up to be? Does it enhance collaboration or make it harder? Are we spending money on software and training for something that's making our work product better, or are we working too hard to make it work? Join us at our DBIA luncheon for a round table talk with users from all sides of the 3D model. Hear architects, engineers, general contractors and sub contractors engage in a lively discussion on the good, the bad and the ugly about BIM.

SPEAKERS

Program led and moderated by **Andy Kirby, C.W. Driver**

Jeff Park, LEED AP BD+C - Project Manager, Gilbane Building Company
Mr. Park has worked on many projects including Ohio School Facilities Comm., the Univ. of AZ and the 695,000 SF, 16-story Maricopa County Court Tower (new \$263M criminal court tower in Phoenix). Jeff has won many awards for his accomplishments including Excellence Awards for the Ohio School Facilities Board Project; the Univ. of AZ Keating BIO5 Building; a Project Achievement Award for Charles River Laboratories; and was the 2011 Western Region recipient of the Gilbane Chairman's Excellence Award. Jeff is a LEED BD +C Accredited Professional, an AIC Certified Professional Constructor, graduate of Univ. of Cincinnati and is OSHA 30-hour Certified.

Sean Zook, AIA, LEED AP BD+C, Assoc. DBIA - BIM Manager, PCL Construction Services
Mr. Zook has over 12 years of industry experience, and has worked on both the design and construction sides of the building industry. Sean is responsible for managing the Building Information Models through both the design and construction phases of projects. For the past three years, Sean has been BIM Manager for the SD Intl. Airport "The Green Build" Terminal and Airside expansion. Sean remains active in the project, managing and facilitating the virtual design and construction coordination of Architecture, Structural, MEP+F, Baggage Handling, and Special Airport Systems. Sean is a licensed architect in the State of CA and holds a BS degree in Architecture from Ohio State University. Sean will receive his DBIA accreditation in 2012.

Aaron Lawson - Pre-Construction Manager, Gould Electric
Aaron Lawson manages the Gould Electric Pre-Construction/BIM department. Over the last 18 years, Aaron has also worked as a PM, Superintendent and Foreman. He has developed a BIM department focused on creative problem solving and collaborating for real-world results.

Gerald Hartford, P.E., LEED AP - Managing Director/VP/Mech. Engineer, Syska Hennessy Group
Mr. Hartford is a registered professional engineer and LEED accredited professional with more than 30 years of experience in the design and construction industry. He is the Managing Director for the San Diego office and is a leader in the firm's implementation of Revit MEP. Mr. Hartford served as the principal in charge and project manager on the Maricopa County Court Tower in Phoenix, AZ which was fully designed in Revit MEP. Other Revit MEP projects he has led include the San Diego International Airport's Terminal 2 West expansion, San Diego Convention Center Phase 3 Expansion and the Hilton San Diego Bay Front.

Norman Strong - FAIA, Partner & **Ben Dalton** - Project Manager, The Miller Hull Partnership
The firm has been in the BIM world for over five years, starting with a design-build project for five branch libraries. Now, all projects are utilizing BIM (Revit), in particular our design-build projects. Currently Miller Hull is working with The Legacy Collaborative on a new design-build Mesa College Cafeteria & Bookstore in San Diego utilizing all aspects of BIM and IPD methods for both the design, pre-construction, and construction of this \$34M project.
